Tasting Notes

100% Pinot Noir grapes were late harvested on 25th May 2021 allowing them time to ripen fully and produce a considerable amount of sugar. The juice was fermented in stainless steel to retain the varietal and fruit characteristics. The ferment was then stopped to retain a residual sugar of 113g/l. It has attractive aromas of peach and raspberry on the nose. Intense flavours of strawberries, citrus, sherbet and a hint of tangelo on the palate. This wine is a perfect match with desserts or cheeses and can be enjoyed on its own.
