

The Penelope Radburn range was founded with one clear purpose, to push the boundaries of our traditional Radburn wines. We still aim to celebrate New Zealand's cool climate viticulture while bringing a second generation's perspective to varieties and styles.

SENSORY

This wine was fermented at low temperatures to preserve freshness and perfumed aromatics. Made from Merlot grapes, this Rosé is finely structured with notes of wild strawberry, pink grapefruit and rosewater. A touch of spice and a subtle saline lift add freshness and a savoury edge to the finish. Perfect for simply enjoying on its own or with your favourite dishes.
