SUSTAINABLE WINEGROWERS

PINOT GRIS 2026

AWARDS

Gold - New World Wine Awards 2026

Silver (90 Points) - The New Zealand International Wine Show 2026

90 Points (4.5 Stars) - Sam Kim, Wine Orbit, June 2026

90 Points - Cameron Douglas MS, September 2026

"It's elegantly fragrant on the nose with aromas of Asian pear, rockmelon, Gala apple, and white flowers. The palate offers youthful fruit flavours and a silky mouthfeel, well supported by juicy acidity, making it immediately appealing."

Sam Kim, Wine Orbit

TASTING NOTE

This wine has the palest almond hue in the glass - derived from the pinky-grey skin pigment of the Pinot Gris grape variety. Succulent and floral with a faint hint of nutmeg coming through on the nose. The palate shows ripe pear together with notes of honeydew melon. Well balanced natural acidity complements the off-dry finish on the wine.

WINEMAKERS NOTE

We used separate parcels of Pinot Gris from across a range of soil types from our vineyard properties on the Waimea Plains. The result is a complex wine, pulling together fruit from our varying Estate vineyards to make the best our terroirs have to offer.

THE VINEYARD

The 2026 Old Coach Road Pinot Gris was harvested from three vineyard sites. This allows us to take advantage of the various clones and nuances each block has to offer.

Our Brightwater vineyard lies about 15km from the coast and is nestled under the Richmond Ranges on the southern end of the Waimea Plains. The soil is a combination of rocks and river boulders, which is hard on farm equipment but vital for holding the warmth of Nelson's sun and ripening grapes. Low nutrient and water levels in the vineyard help to restrict plant vigour, producing fruit with lively, concentrated flavour.

Our Rabbit Island vineyard is situated on a wide river flat, about 1.5km from the sea, which helps moderate temperatures. The soil is gravelly sandy loam, which marks the sites of Māori kūmara (sweet potato) beds prior to European settlement in the early 1800s. Scrub was burned to give ash and charcoal, which increased soil fertility and characteristic topsoil. This fertility is now considerably reduced due to modern farming. The soils are, however, very sandy and free-draining. The water table is relatively high, ensuring adequate underground water.

Our Redwood Valley vineyard is an unirrigated, gently sloping, north-facing clay site; the vines range in age from 10 to 30 years. Vertical shoot positioning helps to expose the berries to sunlight, thus getting maximum intensity and optimal ripeness. The clay holds moisture well, supporting deep root systems and producing fruit with good texture and complex flavours.

WINE ANALYSIS

Vineyard: Seifried Brightwater, Rabbit Island & Redwood Valley vineyards

Date of Harvest: Mid-late March 2026

pH of Wine: 3.44

T.A of Wine: 5.6

Residual Sugar: 7.0g/L

Alcohol: 12.5%

Suitable for Vegetarians and Vegans: Yes

FOOD MATCH

Try with crispy duck salad or fettuccine Alfredo. Delish!
